

ADITYA VARMA

AI/ML Engineer | Kochi, India Date: March 2026

CORE STACK

AI, ML, NLP, CNN, LLM, FastAPI, REST API, SQL, C++, C#, Azure.

EXPERIENCE

AI/ML Engineer Intern | R&D Center | 2025 – 2026

- Engineered **AI** and **ML** models using **PyTorch** and **TensorFlow** for spatial **innovation**.
- Developed high-concurrency **FastAPI** and **REST API** endpoints for **model-based solutions**.
- Built **Azure pipelines** to automate **build**, **continuous integration**, and **deployment**.
- Designed **SQL** and **Vector Database** schemas to manage large-scale **content** repositories.
- Created **POC** prototypes using **OpenCV** to demonstrate advanced **technology capabilities**.
- Leveraged **GenAI** and **AutoML** to deliver **highly personalized experiences** for **customers**.
- Implemented **unit testing** and **automated testing** to maintain the highest **quality** standards.
- Authored **technical documentation** for **enterprise systems** and **complex data** solutions.

PROJECTS

Generative AI Spatial Design

- Developed a **Deep Learning** pipeline using **PyTorch** for **Computer Vision** tasks.
- Integrated **REST API** services with **Azure Cloud** environments for **scalable** delivery.
- Optimized **image processing** using **Pillow** and **scikit-image** in a **Python** environment.

EDUCATION

B.Tech in Computer Science (AI/ML) | 2026

- Focused on **Analytical** problem-solving and **Technical** excellence. **GPA: 9.8/10**.
